

A coastal region of Ireland

Dingle coast

By Caitlin Hayes

Physical Features: Lakes, rivers, mountains, beaches etc.

Dingle has the peninsula which is a place with beautiful beaches and cliffs. And also has Brandon mountain in dingle coast.

Amenities or facilities available

In dingle coast there is loads of amazing facilities na things to do! Some of the things you can do there are get ice cream at murphys, swim with fungi! Go surfing, climb mount brandon, visit the basket islands and so much more!

Tourist attractions

Dingle coast has loads of beautiful tourist attractions but one of them is the dingle lighthouse. This lighthouse was built in 1885 to stop boats from crashing into the crow rock at the dingle harbour. And if you go up to where the lighthouse is built there is a beautiful view of the sea!

Transport into and out of the area

Killarney, Farranfore and Tralee are the nearest train stations to the Dingle Peninsula. Trains from Dublin and Cork run every 2 hrs 7 days a week

Contrast to where I live:

The dingle coast has loads of beautiful beaches and attractions but it doesn't have the beautiful o'briens bridge walk and has the beautiful river that sparkles in the sun! Or it doesn't have the lovely people that live here in bridgetown!
