

Bridgetown N.S First WOW Day

Last Wednesday (23/2/2022) I was really excited because we were getting our mid term break that day and we were having our WOW Day (Walk On Wednesday).

Once the bus came I got on and started talking to Patrick. Then the bus collected Sean Ryan and his brother. We were devising a plan to make it up to the creamery in time. We got to the school at quarter past nine. We only had five minutes to make it in time. I quickly left my violin outside the school and we ran as quick as we could uphill to the creamery. We made it!

I could see all the teachers and my friends there. There were so many people there. We waited at the creamery for a couple of minutes and then we walked down. Sixth class being the oldest went at the front so if a car was going at 100 miles per hour we would be killed first. Just kidding, we were at the front to keep the younger kids between teachers and responsible kids.

Walking down was so much fun we got to talk to our friends. It was even better because it was a clear morning. We got to the school in no time at all.

I can't wait to do it again today.

The End.
